

COVID-19 and BREASTFEEDING

NOW RECRUITING BREASTFEEDING WOMEN WITH COVID-19

Are you at least 18 years old and breastfeeding?

Have you tested positive for COVID-19 in the past 48 hours?

If so, you may be eligible to participate in important research on breastfeeding and COVID-19. Participation would require at least one but ideally three milk samples and breast swabs in the week after you are diagnosed with COVID-19. You will be provided a Medela Harmony pump, which is yours to keep after the study.
