

Extra
breastmilk
in your
freezer?

mothers' milk bank
of north texas

EST. 2004

Safely connecting generous mothers to fragile babies.

Become a donor in 3 easy steps:

1

Call
817-810-0071
to complete a
short health
screening

2

Complete a
medical history
questionnaire

3

Get a free,
non-fasting
blood test

Hospitals pay fees associated with donor screening and milk processing. As a nonprofit organization, Mothers' Milk Bank of North Texas provides charitable care for medically vulnerable outpatients whose families have limited financial resources.

Proud member of

HUMAN
MILK BANKING
ASSOCIATION OF NORTH AMERICA

mothers' milk bank
of north texas
— EST. 2004 —

The **Miracle** of Donor Human Milk

Tested, gently **pasteurized** and dispensed by prescription for medically needy infants

One ounce can feed **3** premature infants

Contains immunological properties, prevents complications and **enhances survivability**

1200+
milk donors needed **each year** to meet hospital demand

“Donor milk was such a blessing for my son when he was in the NICU. When I eventually established a supply and produced more than he needed, I was honored to become a donor and help other mothers and babies.”

— **Beth S.**
